

SATVI AKOLA

B.Tech Computer Engineering · Charotar University of Science and Technology

31, Vinayak Park Soc, Behind Ashok Vatika, Zanzarda Road, Junagadh, Gujarat – 362001 | satviakola16@gmail.com | +91 8320921037

EDUCATION

Degree / Exam	Institution	Board / University	Year / Score
B.Tech – Computer Engineering	CSPIT, Changa	Charotar University	2024–2028 · 7.83 SGPA (Sem 3)
12th Board	Javiya Schooling System, Junagadh	GSHSEB	2022–2024 · 90.00%
10th Board	Javiya Schooling System, Junagadh	CBSE	2022 · 89.16%

EXPERIENCE

Machine Learning Intern — Zaalima Development Pvt. Ltd.

Summer 2025

- Built an end-to-end ML pipeline for customer churn prediction and Customer Lifetime Value (LTV) estimation using the IBM Telco Customer Churn dataset, covering data preprocessing, feature engineering, model training, and evaluation.
- Trained and benchmarked multiple classification models — Logistic Regression, Random Forest, and XGBoost — for churn prediction, tuning features to improve predictive accuracy.
- Developed an LTV regression model achieving an MAE of 48.79 and an R^2 of 0.999, demonstrating high predictive performance on held-out data.
- Authored a formal internship report covering methodology, feature engineering outputs, and model evaluation, submitted to CSPIT under official formatting requirements.

Tech Stack: Python · Pandas · NumPy · Scikit-learn · XGBoost · Jupyter Notebook

TECHNICAL SKILLS

Languages	C, C++, Java, Python, JavaScript
Machine Learning	Scikit-learn, Pandas, NumPy, XGBoost, Sentence-Transformers, ML pipeline design & evaluation
Web / Frontend	React.js (Vite), HTML, CSS, Tailwind CSS
Backend	Node.js, Express.js, FastAPI, Django
Databases	PostgreSQL, MySQL, Oracle, MongoDB, SQLite, SQLAlchemy
DevOps / Tools	Docker, Socket.io, JWT, Google SSO, Groq LLM API, Git
OS	Windows, Linux (Ubuntu – Basics)

PROJECTS

AI Emotional Tutor Chatbot

2025

Tech Stack: FastAPI · React.js · PostgreSQL · Docker · SQLAlchemy · Groq LLM

- Designed an emotion-aware AI tutor that detects user emotions, tracks engagement, and identifies confusion patterns to adapt teaching style in real time.
- Implemented dynamic explanation-difficulty adjustment — when a student repeatedly struggles with a concept (e.g. recursion), the system automatically simplifies explanations and switches teaching strategies.
- Built persistent multi-session chat memory with ChatGPT-style dynamic session titles and a real-time insights panel.
- Architected a Dockerized full-stack system (FastAPI backend + React frontend + PostgreSQL), demonstrating async backend design and prompt engineering for stateful AI interactions.

Planora — Construction Collaboration Platform

2024–2025

Tech Stack: React (Vite) · Node.js · Express.js · PostgreSQL (Neon) · Socket.io · Tailwind CSS

- Built a full-stack platform connecting landowners, architects, engineers, and contractors with role-based JWT + Google SSO authentication across 4 distinct user roles.
- Designed multi-role dashboards for project tracking; integrated an ExpertMap geospatial system to locate professionals.

- Implemented real-time collaboration features via Socket.io and a document upload & verification system.

Course Registration System

2024

Tech Stack: HTML · CSS · JavaScript · Node.js · Express.js · PostgreSQL

- Developed a full-stack course enrollment system with admin and student roles, RESTful APIs, and a relational database schema.
- Created a responsive UI with role-based dashboards and ensured secure data handling via parameterized queries.

HostelMate — Hostel Management System

In Progress

Tech Stack: Python · Django · SQLite · HTML · CSS

- Building a Django-based hostel management app covering room allocation, complaint tracking, gate-pass requests, and admin dashboards.
- Implementing user authentication with role-based access (students, staff, admin) and Django ORM for data management.

CERTIFICATIONS

- AI & Machine Learning — Coursera
- Data Structures & Algorithms — Coursera
- Algorithm Design — Coursera
- Data Analysis — Coursera
- Python — Coursera
- Java Libraries — Coursera
- C++ — Coursera
- Cloud Computing — Coursera

ACHIEVEMENTS & EXTRACURRICULAR

- Top 20 teams (Rank #12) — Sprintathon by Google Developer Groups (GDG) 1.0
- Participated in Green Spark: Ideation for Sustainable Solutions
- Participated in Smart India Hackathon (Internal Round, CSPIT)
- Participated in Odoo Hackathon and HackTrack
- Participated in Markup Mania and C-Quest
- Represented CSPIT-CE in Girls' Cricket & Basketball — Spoural 2026

SOFT SKILLS

- Strong problem-solving with an analytical approach
- Effective communication & team collaboration
- Quick learner with a proactive attitude
- Ability to work across different environments

PERSONAL PROFILE

Nationality: Indian **Gender:** Female

Date of Birth: 16th June 2006 **Languages:** Gujarati, Hindi, English

I hereby declare that the above information is correct to the best of my knowledge and belief.

Place: Junagadh, Gujarat
